

JUSTIN RODRIGUEZ - Systems Analyst | Active Secret Clearance

Tampa, FL (Open to Relocation) | (254) 458-3597 | justinrodriguez0728@gmail.com

B.A Computer Science | Security+ | CySA+ | Network+

PROFESSIONAL SUMMARY

Cybersecurity professional with an active Secret clearance supporting SOCOM through systems analysis, access management, troubleshooting, and secure enterprise IT operations. Prior enterprise NSOC experience includes SIEM monitoring, incident response, Azure/Entra ID, Conditional Access, and large-scale network operations. Additional background includes NIST, CMMC, RMF, compliance initiatives, security documentation, and risk-based control alignment.

SKILLS

Security & Compliance: NIST 800-171 • CMMC Level 2 • **Tools & Platforms:** Microsoft Sentinel • Wazuh SIEM • RMF • Policy Development • SolarWinds • Cisco vManage • Juniper Mist • Citrix

Cloud & IAM: Azure / Entra ID • Conditional Access • **Programming:** Python • C/C++/C# • Java Identity & Access Management

PROFESSIONAL EXPERIENCE

Compass Point Federal - Systems Analyst | MacDill AFB, FL | Apr 2026 - Present

- Provide mission-critical support to SOCOM components and global TSOCs.
- Provision accounts through ARS and verify Azure group assignments.
- Serve as liaison between users and engineers to resolve identity and access issues affecting mission systems.
- Coordinate with engineers to resolve complex user access problems.

Rooms To Go Corporate - Network Security Operations Analyst | Seffner, FL | Jan 2025 - Apr 2026

- Monitored and responded to cybersecurity alerts, network outages, and critical enterprise events.
- Validated Entra ID groups and enforced Conditional Access policies.
- Monitored 250+ networks using SolarWinds, Cisco vManage, and Juniper Mist.
- Supported Citrix server administration to maintain system reliability, user access, and infrastructure performance.

TheIncLab - Cyber Security Intern | Tampa, FL | Jun 2024 - Sep 2024

- Applied RMF to assess and manage IT system security risks.
- Developed policies for NIST 800-171 and CMMC Level 2 compliance.
- Monitored security events and compliance using Wazuh SIEM.
- Created system boundary diagrams and SDLC flowcharts.

Pikes Peak State College - IT Help Desk | Colorado Springs, CO | Jul 2019 - Dec 2021

- Resolved hardware and software issues on Windows and Mac systems.
- Documented support activities and complex technical issues.

Department of the Air Force - Recreation Aid | USAFA | Mar 2019 - Jun 2024

- Mentored 200+ cadets in fitness and personal development while supporting daily facility operations.

EDUCATION & CERTIFICATIONS

- M.S. Computer Science, AI & ML Focus - WGU (Expected 2027)
- B.A. Computer Science, Cyber Security Focus - University of Colorado
- A.A.S. Cyber Security - Pikes Peak State College
- CompTIA Security+
- CompTIA CySA+
- CompTIA Network+
- AWS Certified Machine Learning Engineer - Associate (07/26)
